

## KILBANE GETS A FORTUNE WIN OR LOSE THIS FIGHT

(By Associated Press.)  
Cleveland, Sept. 10.—When Johnny Kilbane, world's featherweight champion boxer, steps into the ring at Dunn Field here on the afternoon of Sept. 17 to face Danny Frush of Baltimore in a twelve-round bout to a decision, it will be the first time he has defended his title since he knocked out George Chaney at Cedar Point Ohio, Sept. 4, 1916.

Kilbane is to receive \$60,000 for his end—win, lose or draw—or possibly more, as he is working on a 50 per cent basis. This is said to be the largest amount ever guaranteed a boxer below the heavyweight rank, and very few heavyweights have received that much for a championship match. Frush is to receive \$2,500—his training expenses.

Kilbane was 32 years old last April. Despite this supposed handicap, he is confident he will retain his title. Frush is twenty-two, or about a year younger than Kilbane was when he wrestled the championship from Abe Attell on February 22, 1912, at Vernon, Cal.

Although Kilbane's title has not been at stake for five years, he has fought any number of no-decision bouts.

Frush is regarded here as his foremost opponent. He has defeated some of the best in the featherweight division, and has a far better knock-out record than Kilbane. In his list are several who went the limit with the champion. One of these is Artie Root of Cleveland, who came dangerously near winning the featherweight championship in a bout here a year ago when he landed a punch on Kilbane's chin, only the ropes saving Johnny. Frush has

## Hawthorne's Old Home Preserved

(By Associated Press.)  
South Casco, Maine, Sept. 10.—The house on the shores of Sebago lake here in which Nathaniel Hawthorne lived as a boy and where he made his home when he was attending Bowdoin College, is to be preserved as a community house. Citizens and summer residents have just formed a corporation for the purpose.

Robert Manning of Salem, Mass., who owned thousands of acres of land about Sebago lake, built the house in 1814 for his sister, who was Hawthorne's mother. Mrs. Hawthorne had lost her husband at sea and lived afterward in retirement. Hawthorne was ten years old when he came to the new house with his mother, and this continued to be his home until after his graduation from Bowdoin College in 1825, when he returned to Salem.

The building was occupied as a boarding house for a long time after the Hawthornes left it. Seventy years ago it was built over into a church for which purpose it has since been used. It is a big square structure of the colonial style of architecture.

At the request of his uncle, the boy Hawthorne kept a diary while he lived here and these volumes are now in the possession of Rev. William C. Norris of Willimantic, Conn., who is vice-president of the new corporation. They will be donated to the community house.

knocked out Root twice, while the latter stuck ten rounds with the title holder.

Kilbane has the advantage over Frush in reach, his being about three inches longer than the challenger's. He has also about four inches the better of him in chest measurements. Frush is about an inch taller, and is quite a little stockier about the legs.

## Orange Best Color For Football Togs

(By Associated Press.)  
Urbana, Ill., Sept. 10.—Orange is the best color for a football jersey, the psychologist assisting the University of Illinois eleven has decided, and the traditional blue sweater of the Illini will be discarded this fall.

"In a football game the men on the team are playing against a dirty gray greenish background furnished by the gridiron and the grandstands," Dr. C. R. Griffith of the department of psychology advised Coach Zuppke. "It is desirable that a color be chosen to stand out against this background."

Dr. Griffith teaches a course in the university's coaching school dealing with psychology as applied to the needs of athletic coaches.

## CROP GAINS INDICATE FULL GRAINERIES IN WEST

(By Associated Press.)  
Washington, Sept. 10.—Recovery of the corn crop during August from the serious damage sustained from July weather conditions featured the September grain report of the department of agriculture issued today. Favored with good growing temperatures and plenty of rain in practically the entire corn belt the production forecast made a jump of 154,000,000 bushels bringing the indicated production to 3,186,000,000 bushels or only 48,000,000 bushels less than last year's crop, the largest ever grown. With continued favorable conditions this year's production may yet become a record crop. Indications are that most of the crop is now out of danger from frost.

The wheat crop showed a decline of 3,000,000 bushels with the total of 754,000,000 bushels indicated as this year's harvest. Oats declined 47,000,000 bushels during August with a total crop of 1,090,000,000 bushels forecast.

Potatoes showed an increase of 7,000,000 bushels over a month ago.

## Horseshoe Poet Is Still Plying His Trade With Songs

(By Associated Press.)  
Hamlin, Minn., Sept. 10.—Chicago's horseshoe-poet, M. E. Buckley, is one of the most interested attendants at the tournament of the National Horse Shoe Pitchers Association, held here during the Minnesota State Fair.

For many years before the automobile truck came in, Buckley shod the horses of the Chicago newspapers, which had to be well cared for to rush the papers to train and lake steamers.

The big horseshoer has a strong sense of rhythm which in those days, before he laid aside the hammer for the pen, manifested itself at the anvil. While making the shoes, he used

with a total of 323,000,000 forecast. Tobacco production indications showed an increase of 59,000,000 pounds over a month ago with a total of 948,000,000 pounds.

## HARDING ORDERS PRESERVES FOR FAMED FLORIDA BIRD

(By Associated Press.)  
St. Petersburg, Fla., Sept. 10.—To provide a safe abitat for the rare and beautiful roseate spoonbill, Tarpon Key and other small keys near the junction of Tampa and Boca Ceiga bays, a few miles south of here, have been added to the Indian Key federal bird reservation by executive order of President Harding.

National Audubon society officials recently reported there were no colonies of spoonbills left outside of Florida and that the bird was becoming extinct rapidly.

to play popular tunes with hammer and sledge. Often while passing Buckley's shop Chicagoans heard the Star Spangled Banner resounding from his anvil.

With this sense of harmony a deep sentiment united in the horseshoer, which has led him in recent years to devote himself largely to poetry. His verse pays frequent tribute to the horse and to the honorable trade of horseshoeing. It was his interest in the good old game of horseshoes that brought him here.

## Band Contest Is Legion Meet Plan

(By Associated Press.)  
Kansas City, Mo., Sept. 10.—One hundred bands representing every state in the union are expected to compete for prizes in the parade opening the American Legion convention here Oct. 3.—Three awards totalling \$1,750 will be given. Entries already in hand include bands from Massachusetts, New York, Oregon and Missouri.

Winnipeg, Man., Sept. 10.—Organization of the newly formed Canadian Labor Party is under way. platform recently adopted includes:  
State insurance against unemployment chargeable to industry, ownership of public utilities, national representation, old age pensions, nationalization of the land system, capital levy for reduction of the war debt, removal of taxes on the necessities of life and of land values.

Does Health Mean Anything to You?

## CHIROPRACTIC

adjustments are a successful way of acquiring and retaining health. The man in business for himself, finds that he is not able to do justice to his business when he is not feeling well. His health means everything to his business. The man who is working for someone else knows that in order to increase his earning capacity he must be in good health. If he is not in good health he cannot turn out the amount of work that his employer expects, and sooner or later it will result in a decrease in pay or even the loss of his job. Therefore the amount expended in acquiring and retaining health may be looked upon as an investment that must pay big dividends.

While the immediate cost of a course of Chiropractic adjustments may seem a little bit too expensive, when you take into consideration what it means to your future welfare it amounts to almost nothing.

If the average man or woman loses his or her earning capacity, life becomes a burden to him and his family. Be fair to yourself anyway.
